Reason for Allowance

1. The following is an examiner's statement of reasons for allowance: The prior art of record (Chaput et al. 5,263,084) teaches a spontaneous call waiting system wherein when a call waiting alerting tone is received from a central office, a handset is muted and then an acknowledgment is sent back to the central office for reception of the callerID data.

The prior art (Chaput, US Pat# 5,263,084) fails to teach a method for providing to a first party already engaged in a telephone conversation with a second party via a telephone local switching office identifying information related to a calling third party wishing to converse with the first party in a manner that minimizes the time period of a mute condition for a first party, comprising the steps of:

the local switching office sending a call waiting signal to the first party;

the first party apparatus responding to the call waiting signal by transmitting to the local switching office an acknowledgement signal indicating that it is ready to receive calling party identifying information;

concurrently with the transmission of the acknowledgement signal to the local switching office, utilizing at least one notch filter to render the acknowledgement signal substantial inaudible;

the local switching office then transmitting data corresponding to the identifying information related to the third party;

Art Unit: 2643

the first party apparatus then receiving, storing and displaying to the first party the identifying information related to the third party as received in the data transmission, thereby allowing the first party to know the identity of the third party; and

the first party apparatus responding to the detection of the end of the data received by terminating the muting of its handsets, thereby allowing the first and second party to resume conversation as claimed and substantially connected in claims 1-53.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Drawings

Please, submit in formal drawings in response to the notice of allowance.
